3/1/98

Dear Jim,

Enclosed is an exchange with the FBI I'd forgotten to send you. They are now, only now, acting on appeals numbered in 1985? While ignoring even older ones, of which there are many?

Thanks for the Sun story. However, it was not dated. I'll appreciate the date of it or of the agreement. I've added that story to what I'd written.

I would like to see the Mack deposition but I'll not add it. I plan to add no more.

The Sun does not quote Donahue and he was not present at the deposition. I think it means that he, Sr. Martin's or both knew the truth and that they'd be better off with his absence.

Especially from my deposition because I'd told him in advance that the pictures prove what he made up was impossible.

Thanks and best,
